EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jeffrey Lesperance, *Esq.* and Ms. Barbara Schwalge on February 5, 2007.

In the TITLE:

The numeral (III) after the word suitable and before the word catalysts was deleted.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The prior art is laden with the process of making polyoxymethylene with various types of catalysts. However, the closest art (US3457227) neither teaches nor discloses the catalyst structure recited in this instant application.

Hence, the process for preparing polyoxymethylene by contacting a formaldehyde source with a catalyst of the formula I (as recited) is novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
